I would like to comment on the possibility of your expansion of the LPFM broadcast. I listen to KLOVE radio station that I send a monthly pledge to keep this radio station on the air. This is a very encouraging radio station because in this world today it is nice to listen to christian music and the broadcasters on this station are christians and you don't have to worry about things being said while your children are listening. I have listened to local country and rock stations and the broadcasters are unprofessional in the things they say and the topics they talk about are not appropriate. I think that having a radio station like KLOVE helps people deal with the world crisis' in different ways and when you are driving down the road and your day is bad, and certain songs come on the radio that help you deal with your situations, and when they pray on the radio and you are driving it is a real comfort to take that time to pray with them. I would hate to see a good station be taken out and replaced with stations that would not be as pleasing to people and children. I ask that you take into consideration my feelings about this along with the many other supporters of the KLOVE station. God Bless!!
